

„The Association Between Early Life Access to Communication and Mental Health Outcomes Among Deaf People“

Ramas McRae - Deakin University

Suicide - Is there a difference
between Deaf and hearing
people?

What are the reasons for Deaf
people's suicidal behaviour?

What role do communication and
education play?

Ramas McRae will present the
results of his PhD research on the
Australian Deaf community,
communication access and mental
health outcomes.

The lecture will be held in
International Sign and interpreted
into German Sign Language and
German or English spoken
language.
